

CRAFTERS CLUB TUTORIAL #6

24/11/18

HAYNETS

You will need:

- Fruit bag net (you know, the ones that hold mandarins and kiwifruits)
- Baling Twine
- Small rubber band (loom bands work fine)
- String/embroidery thread
- Scissors

1. Cut a square out of the fruit bag net, medium size
2. Cut a small piece of baling twine (5cms should do it)
3. Pull apart the baling twine so it looks like hay
4. Gather up the corners of the net, so it forms a bag
5. Tie the rubber band around the top of the bag, holding it together
6. Cut a 5-6cm piece of string, and fold it in half
7. Secure both ends of the string underneath the rubber band. This will hang your haynet.
8. Trim the top of the haynet
9. Finished!
